

Leica DISTO™

D8

Infinite combinations?

■ **360° tilt sensor**

The combination of angle and distance measurements allows you to determine distances where conventional methods fail.

■ **Error-free data transfer**

BLUETOOTH® and the supplied "Leica DISTO™ Transfer" software ensure that data transfer to pocket PCs and PCs is quick and error-free. The simple way to enter your results into Excel®, Word®, AutoCAD® and other programs for further processing.

■ **Strong outdoor performer**

Measure long distances simply and quickly thanks to the digital Pointfinder with its 4x zoom and high resolution colour display.

 **Bluetooth®**

Any tilt can be determined in the simplest of ways by placing the housing on the sloping surface.

The in-built digital Pointfinder provides you with an easy way to point precisely at long distance.

The BLUETOOTH® interface means you can transfer data quickly, without errors.

Your advantages at a glance	
Measuring range 0.05 m up to 200 m typ. accuracy ± 1.0 mm	Precise, fast and reliable measurements
BLUETOOTH®	Error-free and quick data transfer to Pocket PC or PC
"Leica DISTO™ Transfer" software is included	Easy transfer for further processing in Excel®, Word®, AutoCAD® or other Windows-based programs
Plug-in for AutoCAD® and Bricscad™	Convenient drawing using your AutoCAD® software
360° tilt sensor	Measure any slope, even overhead
Digital Pointfinder with 4x zoom and high resolution colour display	Convenient measurement of distant objects, even in bright sunlight
Indirect measurement functions with tilt sensor	Determine distances to objects that cannot be measured directly because they lack reflective points
Height profile measurements	Determine spot heights and ground profiles

Our Promise – Innovation by Tradition

More than 15 years ago Leica Geosystems brought out the first hand-held laser distance meter and revolutionised the world market. Since then we have set the standards for productivity in modern measuring. A lively spirit of innovation inspires our highly motivated development engineers to keep coming up with new ideas. They lead to products that win over the customer with their robustness, reliability and precision. Leica DISTO™ eases our customers' everyday tasks.

Measuring long distances thanks to Power Range Technology™ from Leica Geosystems.

Millimetre-accurate measurements – the laser makes it possible! An innovation from Leica Geosystems.

The highest demands

Satisfying customers' needs and fulfilling their expectations receives the highest priority at Leica Geosystems. We promise outstanding quality. We keep this promise by employing highly qualified specialists and working with the best partners. Only materials complying with the highest international standards are used in the manufacture of our products. Continuous tests during production guarantee consistently high quality.

Model range

The user can select his ideal model from the range of innovative laser distance meters manufactured by Leica Geosystems. The product portfolio is rounded off by some worthwhile accessories that allow you to complete your measurement tasks even more efficiently. As you would expect, we also offer the same spirit of innovation and promise of the highest quality with all our other products.

Warranty and customer service

Register your device with us within 8 weeks of purchase at www.disto.com and benefit from our 3-year warranty. Should a problem arise we normally deal with it in a simple way – your dealer will immediately replace a defective device with a new one, because time is money.

Represented worldwide

Leica Geosystems has a global network of dealers with numerous branches in Europe, Asia and America. We are always there for you. Never far away.
